

OLORUNSOGO OLUBOWALE BANWO

+(234) 9169501662 | sogobanwo@gmail.com | [linkedIn](#) | [Github](#)

Professional Summary

Innovative Software Developer and Developer Advocate with a strong foundation in Web3 technologies, including JavaScript, TypeScript, Solidity, Ethers.js, Foundry, and Hardhat. Experienced in building decentralized applications (dApps) using modern frameworks like React.js, Next.js, React Native, Ethers.js, Wagmi and GraphQL. Passionate about empowering developer communities through technical content creation, workshops, and open-source contributions. Skilled at simplifying complex blockchain concepts and fostering collaboration to drive adoption and innovation in the Web3 ecosystem. Committed to bridging the gap between cutting-edge technology and real-world solutions.

Work Experience

Blockchain Developer Advocate

[HostIt](#) - Lagos, Nigeria

June 2024 - Present

- Designed and launched a blockchain-based event ticketing platform, facilitating 5 events and onboarding 2,000+ users.
- Distributed 1,000+ POAPs to attendees, enhancing user engagement and loyalty.
- Created technical content and delivered presentations to promote decentralized ticketing solutions.
- Provided hands-on support to event organizers, ensuring seamless integration and adoption.

Smart Contract Developer & Technical Mentor

[Web3Bridge](#) - Lagos, Nigeria

Jan 2024 - May 2024

- Built secure and efficient smart contracts using Solidity, enabling trustless decentralized applications.
- Guided 10+ developers through a 4-month program, improving their blockchain development skills.
- Conducted workshops to simplify blockchain concepts, increasing developer confidence and adoption.

Frontend Developer

[Voluntrr-Services](#) - Birmingham, Uk

May 2023 - Jan 2024

- Spearheaded the front-end development of a cloud-based recruitment management solution, revolutionizing talent acquisition processes.
- Developed intuitive interfaces, improving user experience for recruiters and candidates.
- Worked with cross-functional teams to integrate front-end and back-end systems seamlessly.

IT & Operations Relations Specialist

[First Metro Infrastructure Limited](#) - Lagos, Nigeria

Feb 2023 - Jan 2024

- Implemented an ERP system, enhancing operational efficiency and communication across teams.
- Deployed CMMS software, streamlining maintenance workflows and reducing downtime.
- Expanded IT infrastructure across multiple train stations, ensuring reliable connectivity and coordination.

Software Development Intern and Mentor

[TIIDELab](#) - Abuja, Nigeria

July 2022 - Jan 2023

- Developed the front-end of a social media management platform using HTML, CSS, JavaScript, and React.js.
 - Authored documentation and tutorials to onboard new developers and improve team productivity.
 - Mentored the next cohort, fostering collaboration and knowledge sharing within the community.
-

Education

Bachelor of Engineering, Mechanical Engineering

Lagos State University - June 2022

Second Class Upper Division (4.22/5)

NanoDegree, Full Stack Development

Udacity - Sept 2022

Technical Skills

Programming Languages: Javascript, TypeScript, Solidity, Rust, Cairo

Web3 Technologies: Ethers.js, Wagmi, GraphQL, Apollo Client

Frontend Technologies: React.js, Next.js, React Native

Backend Technologies: Node.js

Database: MongoDB

Version Control: Git, Github, Bitbucket

Project Management: Trello, Jira, ClickUp

Languages

English (Fluent)

Yoruba (Native)
